Participation in a one-off pilot demonstration

30.10.2026 · Place: [PLACE] · Operator: [OPERATOR NAME], [ADDRESS], [EMAIL].

I voluntarily try an early Synera version on my own phone and may stop at any time. Ten fictional Demo people use scripted replies. No real cooperation, bookings or payments occur. No Synera account is created; Demo text is not sent to the Synera database. Drafts, preferences and journal may be stored locally. The host may receive IP, browser data and timestamps when loading.

After the Demo I am offered local erasure in the Privacy Centre, only after my confirmation. Drafts/journal entries expire after 30 days on opening. Exports stay with me. This declaration permits no photography, audio/video recording or automatic access to device contents.

Voluntary notes/contact details: delete by [BINDING DELETION DATE]. Signed declaration: [RETENTION PERIOD / CRITERION]. The operator must fill these before signing; a signed declaration is itself separate personal-data processing.

□ I permit keeping my voluntary feedback until the stated date.

□ I wish to receive email about a further test until [DELETION DATE].

Unchecked boxes mean no consent. I may see the Demo without these options. Withdraw voluntary consent for the future at [EMAIL].

I understand the voluntary test with fictional profiles. Name (optional): _____ Signature: _____ Date: _____
